**A Resolution to Implement a Plan to Help Lower-Income Countries'
 Economies**

1 Noting that the Iceland economy consists of a regular income from tourism, which has
 2 been tremendously stalled due to social distancing and quarantines.

3
 4 Fully aware that in 2018 tourism made up 9% of Iceland's GDP, which dropped to 7.5%
 5 in 2019 and then to 1.75% in 2020.

6
 7 Declaring that the Coronavirus pandemic has declined the international market for all
 8 countries including Iceland.

9
 10 Realizing that the Coronavirus pandemic has taken lives of people from countries with
 11 poor health systems, and thereby taken their labor force.

12
 13 Understanding that the recession that is happening has also limited shipping abilities to
 14 and from manufacturers; some of which supply necessary goods for small countries
 15 such as medical supplies or money from exports.

16
 17 Noting that the UN has taken planning measures to help the African continent with the
 18 G20 Africa initiative.

19
 20 Declaring that the World Health Organization has made covid-19 socio-economic
 21 estimates for 2020, realizing that 5-25 million jobs have been lost (ILO), 860 billion —
 22 3.4 trillion losses in labor income (ILO). Also, stating that there has been a 30%-40%
 23 downward pressure on global foreign direct investment flows (UNCTAD), with a 20% -
 24 30% decline in international arrivals (UNWTO), and 3.6 billion people offline (ITU). More
 25 devastatingly to the future, 1.5 billion students out of school (UNESCO).

26
 27 Approving that the UN has taken steps to help other small countries cope with the
 28 pandemic in resolution 2020/10.

29
 30 Mindful that the Universal Declaration of Human Rights recognizes everyone has the
 31 right to work to free choice of employment.

32
 33 Recalling that the Iceland Chamber of Commerce has documented a plan for recovery
 34 and reimplementation in the workforce to skew the numbers.

35
 36 Recognizing the UN Secretary General stated the concern for the need to design fiscal
 37 and monetary policies.

38

39 Concerned that the covid-19 influence in economies and recovery will overshadow the
40 revival of lower-income economies.

41

42 The Delegation of Iceland hereby:

43

44 Requests the UN Economic and Social Council to commence an agreement/plan that
45 sets out clear priorities for economic policy makers to help stabilize small countries in
46 crisis;

47

48 Urges the UN Economic and Social Council to help countries without structural
49 background or income from exports;

50

51 Pleads that the UN uses a realistic approach to overcome the covid-19 pandemic and
52 it's economic impact, as well as creating an effective, sustainable, and equitable
53 economic growth;

54

55 To create this by reviving international trade and investment, combating climate
56 change, and adapting the global system to China's rise in international trade;

57

58 Authorizing the development of financial infrastructures that would diversify the
59 economy;

60

61 Recommending the UN endorse future discussions pertaining to the well-being of
62 underdeveloped countries.

63

64 Affirms that it is necessary for the UN to get its member nations to provide the
65 necessary funds for the support of global community;

66

67 Asking the UN to create a fund between all its members for distribution to countries in
68 need.

A Resolution to Prevent Land Degradation and Increase Arable Land

- 1 Acknowledging the Republic of Benin's main sources of income -- cotton and
- 2 subsistence farming, a system of farming that provides a minimum return to the farmer
- 3 with little to no surplus -- are reliant on arable land,
- 4
- 5 Recognizing desertification -- the process by which fertile land becomes desert, typically
- 6 as a result of drought, deforestation, or inappropriate agriculture -- from the Sahara
- 7 desert is an impending issue plaguing the Republic of Benin,
- 8
- 9 Bearing in mind that global environmental issues -- problems with the Earth's systems
- 10 such as air and water pollution, deforestation, global warming, and desertification --
- 11 threaten our ability to retain arable soil,
- 12
- 13 Noting that of 80% (9.696 million people) of our population (12.12 million people), live
- 14 mostly stringent lives from subsistence farming, and these lives are affected by hunger
- 15 and poverty from the decreasing arable land and desertification,
- 16
- 17 Emphasizes that the combined effects of desertification and global environmental issues
- 18 prove to be a main source of land degradation, causing poverty, droughts, food-
- 19 shortages, loss of land, diseases, chaos, death, and other profound problems,
- 20
- 21 The delegation of the Republic of Benin hereby:
- 22
- 23 Calls upon the United Nations to provide funds in order to implement agricultural
- 24 developments to better the well-being and growth of our country,
- 25
- 26 Asks for funds in order to counter land degradation through drip irrigation, a system of
- 27 crop irrigation that involves the controlled delivery of water directly to individual plants
- 28 through a series of tubes or pipes,
- 29
- 30 Noting that drip irrigation will reduce water waste and will hydrate crops sufficiently and
- 31 has exponentially boosted performance in many other countries, including, but not
- 32 limited to, the United States of America, Israel, China, Egypt, India, and Turkey,
- 33
- 34 Acknowledging that combating pollutants and diseases of food through fertilization will
- 35 mitigate the loss of crops and transform previously uncultivable land into arable land,
- 36
- 37 Requests 180 million USD to combat and solve the impending, profound problems of
- 38 land degradation in our country.
- 39

40 Trusts the United Nations to see the urgency of this resolution and to provide the aid
41 needed.

A Resolution to Initiate Work-Based Learning Opportunities for Displaced Peoples in Developed Countries

1 According to the Guiding Principles in Internal Displacement, internally
 2 displaced persons (also known as "IDPs") are persons or groups of persons
 3 who have been forced or obliged to flee or to leave their homes or places of
 4 habitual residence, in particular as a result of or in order to avoid the effects
 5 of armed conflict, situations of generalized violence, violations of human
 6 rights or natural or human-made disaster, and who have not crossed an
 7 internationally recognized border

8
 9 Fully alarmed with the 82.4 million displaced peoples,

10
 11 Recognizing that refugees become displaced due to human rights violations
 12 and violence towards their religious or personal beliefs,

13
 14 Acknowledging the Universal Declaration of Human Rights, article 14, stating
 15 "the right to asylum for people fleeing their countries due to persecution".
 16 The UN Refugee convention highlighted that displaced people have the
 17 "freedom to work and have access to education,"

18
 19 Understanding that majority of refugees turn to the labor force to be able to
 20 support themselves financially,

21
 22 Noting that 86% of all the refugees are in developing countries while only
 23 14% are in developed countries,

24
 25 Noting that over 7.5 million people globally make up the construction
 26 workforce, developing 5% of the total employment in 2019,

27
 28 Work-place education is a program that allows people to learn while
 29 employed with a company. This allows the employees to learn the trade of
 30 the craft.

31
 32 The General Assembly of the United Nations hereby recommends:
 33 That developed countries to take on this plan of act to help and support
 34 Displaced people,

35

36 With a budget of 75 million USD provided by UN UCR for the first year to
37 cover their shelter, wages, construction contracts and materials, as well as
38 education and training in and out of the workplace

39

40 Asking developed countries to allow a program in which helps refugees with
41 education, primarily targeted towards refugees eighteen and older that can
42 work in the labor force. Within the shelter for their families, they will be
43 supported by an education program and day care to help

44

45 Refugees will be paid an additional 500 USD upon completion of the
46 workplace learning program, 10% of their total revenue will be taken out to
47 support the program.

48

49 Emphasizing that this program would last approximately 12 months in order
50 to provide financial stability to working displaced peoples

51

52 Asking that The International Labor Organization Agency would enforce the
53 standards of professionalism and conditions in the workplace and shelters.

54

55 Ask that the Economic and Social Council distribute the money to ensure the
56 correct allocation of funds

A Resolution to Resolve Terrorism in Burkino Faso

1 To the General Assembly:
2

3 Acknowledging the ongoing acts of terrorism and corruption in Burkina Faso,
4 Terrorism is defined as the unlawful use of violence and intimidation especially against
5 civilians in the pursuit of political gain,
6

7 Recalling that corruption is defined as the action of making someone or something
8 morally depraved or the state of being so,
9

10 Emphasizing the terrorist acts going on these acts have caused poor education for
11 children, food insecurity, and water instability,
12

13 Alarmed that terrorist attacks in Burkina Faso increased by 250% between the years of
14 2018 and 2019, One example of a terrorist attack in Burkina Faso is when over 160
15 people were killed in an attack on the village Solhan in north-eastern Burkina Faso, on
16 June 4 and 5, 2021,
17

18 Deeply conscious that in 2021, 2.9 million people are expected to be hungry during the
19 summer months. Of those 2.9 million, 1.1 million people have been displaced from their
20 homes because of conflict. The World Food Program is working to reach 2.5 million
21 people with assistance this year,
22

23 Recalling that there are 2,800 child deaths per year for children under five due to poor
24 water conditions,
25

26 Aware that water instability has increased by 40%, women and children will walk for
27 miles to get food,
28

29 Noting with deep concern the fact that the terrorist acts are causing dire consequences
30 pertaining food, environmental issues, and problems with schooling,
31

32 Observing the United Nations Sustainable Development Goal No. 16 which strives to
33 "promote peaceful and inclusive societies" and "provide access to justice for all"
34

35 The Delegation of Burkina Faso hereby:
36

37 Requests that the Security Council begins making safe sanctions for the people to go to,
38

39 Encourages the UN to defeat terrorism with security protocol from allied countries;
40 these allied countries are the United States of America, Mali, Niger, Benin, Côte
41 D'ivoire, Ghana, and Togo,
42
43 Accepts that to keep the standard of peace within Burkina Faso we must tolerate the
44 terms of this resolution and put the health and safety of the people before anything
45 else,
46
47 Asks the UN for a loan of 60,000,000 owed to the UN for supplying employment and
48 salary for workers,
49
50 Recommends that military leader titles—such as Lieutenant Colonel, Major, Captain,
51 First Lieutenant, Second Lieutenant—be appointed to qualified members in order of
52 least important to most important,
53
54 With full confidence we believe that these terms should be enacted upon February 28,
55 2022.

**A Resolution to Educate the People of Central Africa on Human
Trafficking and Violence Towards Women**

- 1 Fully alarmed by the growing rates of human trafficking in Central Africa,
2
3 Bearing in mind that Equatorial Guinea was upgraded to Tier 2 watch list in 2020, the
4 government has approached the situation, but the rates are not significantly declining,
5
6 Deeply concerned with the low success rates of human trafficking, a new system should
7 be considered,
8
9 Noting the current UN education programs to broaden knowledge through efforts such
10 as comic books, radio broadcasts, and brochures,
11
12 Desiring education for the youth,
13
14 Emphasizing education and knowledge of trafficking in persons among all members of
15 society are key to eliminating this issue,
16
17 The delegation of Equatorial Guinea hereby:
18
19 Calls upon the United Nations Office for the Coordination of Humanitarian Affairs to
20 support the creation of an educational program devoted to human trafficking in the
21 Central African region,
22
23 Draws attention to the efforts of the International Organization for Migration (IOM) to
24 raise awareness of human trafficking in the Central African Republic,
25
26 Further reminds the people of the efforts already in process; however, believes these
27 processes have not succeeded in branching out to other Central African countries;
28
29 **Requests \$300 million up to \$1 billion** over the next 10 years for the IOM to expand
30 educational resources for all countries of the Central African Region to further their
31 efforts in hopes to reduce human trafficking.
32
33 Expresses its hope to increase education among the people of this region, in regard to
34 this overwhelming crime.

A Resolution to Implement a Verification Committee to the UN

1 To the General Assembly:

2

3 Terms in this resolution are defined as:

4

5 Disinformation - False information that, either intentionally or not, causes
6 harmful misdirection of certain topics.

7

8 Malicious - Causes harm in medical situations or to the environment, or
9 encourages conflict between nations.

10

11 Verification - The process of establishing the truth, accuracy, or validity of
12 something.

13

14 Acknowledging the spread of misinformation, which has the potential to
15 cause environmental detriment, medical issues, and conflict between nations,

16

17 Revealing that there are 6 main types of misinformation: clickbait,
18 propaganda, parody, disorganized journalism, misleading headings, and
19 biased news.

20

21 Taking note of certain Member States' stances on censorship within their
22 countries and pledging to leave said stances intact,

23

24 Addressing the fact that 83% of people believe that fake
25 news/misinformation obstructs their countries politics,

26

27 Noting that in recent years there has been an uplift in exaggeration in the
28 media,

29

30 Finding that the average time that 45% of the world's population spend 2
31 hours and 23 minutes per day on social media, and that 75% of
32 misinformation is spread through social media,

33

34 Recognizing that citizens of all Member States are entitled to their own
35 opinions and have the right to believe any information they choose to,

36

37 The delegation of Summit One, hereby:

38

39 Calls upon the United Nations to establish a Verification Committee consisting
40 of 15 representatives from Member States, with the goal of releasing
41 reliability scores for news outlets,

42

43 Requests funding for a US-based third-party company to create technology
44 which will rate publications based on their credibility and provide a
45 consistent, credible source of public information,

46

47 Requests a sum of 25,000,000 US Dollars from the World Bank for the
48 purpose of hiring a United States-based third-party company and for the
49 implementation of a council of fact-checkers,

50

51 Further requests a tentative annual sum of approximately 1,500,000 US
52 Dollars, though not subceeding 1,000,000 USD or exceeding 2,500,000 USD,
53 in order to pay the salaries of the council members each year and provide
54 upkeep for the verification technology,

- 3
- 4 Alarmed that in 2019, the country of Niger was ranked 189 out of 189 countries in

- 6
- 7 Deeply concerned that 52.7% of girls ages 5-17 do not attend school in Niger,
- 8

**A Resolution to Improve the Safety of Children's Education in the
Islamic Republic of Pakistan**

1 To the General Assembly:

2

3 Alarmed by the fact that there were 867 attacks on educational institutions in Pakistan
4 from 2007 to 2015, resulting in 392 fatalities and 724 injuries as reported by the Global
5 Terrorism Database,

6

7 Deeply concerned that Pakistan is one of the few third world countries that has not
8 endorsed the Safe Schools Declaration, an inter-governmental political commitment to
9 protect students, teachers, schools, and universities from the disastrous effects of
10 armed conflict,

11

12 Fully aware that after the death of 135 children in Peshawar in 2014 from a terrorist
13 attack on a school, Prime Minister Nawaz Sharif attempted to resolve the situation by
14 setting a 20-point national plan, none of which pertained to children and education and
15 thus did not solve the issue,

16

17 Keeping in mind that the main reasons for these terrorist attacks on schools are to
18 foster intolerance and exclusion, to target symbols of the government, and particularly
19 to drive girls out of school,

20

21 Cognizant that Pakistani military forces have used educational institutions as temporary
22 military bases, placing children and teachers at increased risk of danger,

23

24 Concerned that when perpetrators for attacks have been prosecuted against, the
25 Pakistani government has acquitted them, even after they have been arrested and
26 successfully charged,

27

28 Bearing in mind that Malala Yousufzai's efforts in 2012 raised awareness for the
29 situation but did not quite solve it,

30

31 Recognizing that nearly all of the attacks have taken place in the Khyber-Pakhtunkhwa
32 province, which includes Peshawar,

33

34 Considering that although the Pakistani government has released a set of requirements
35 for schools, such as installing closed-circuit cameras and raising boundary walls of
36 schools to at least eight feet and topping them with razor wire, only about 118 of 1440
37 schools in the Khyber-Pakhtunkhwa province have implemented these measures due to
38 a lack of financial support,

39

40 Mindful that similar attacks on schools are also occurring at near the same pace in
41 Pakistan's neighboring country, The Islamic Republic of Afghanistan,

42

43 The delegation of the Islamic Republic of Pakistan hereby:

44

45 Requests the UNICEF for 105,760,000 dollars in order to provide the Pakistani
46 government with the money to implement the security measures proposed in the rest
47 of the 1440 schools in the Khyber-Pakhtunkhwa province;

48

49 Merely suggests that the UN make negotiations with the terrorist groups in order to
50 persuade them to take their focus entirely off children;

51

52 Strongly proclaims that the Pakistani government will do everything in its power to
53 prosecute those responsible for attacks on schools;

54

55 Further proclaims that Pakistan will officially endorse the international Safe Schools
56 Declaration as a message of resistance against the terrorist groups;

57

58 Implores The Islamic Republic of Afghanistan to let the UN assist with the endangered
59 schools using similar measures as those taken in Pakistan.

A Resolution to Provide Supplies and Aid to the Citizens of Venezuela

- 1 To the General Assembly:
- 2
- 3 Noting with grave concern that majority of the drinking water in Venezuela is unsafe to
- 4 drink for 8 of every 10 Venezuelans.
- 5
- 6 Acknowledging that while 96% of the population has access to improved water sources,
- 7 the water sources are still not safe to the extent that they are causing diarrhea,
- 8 hepatitis A, typhoid fever, malaria, etc.
- 9
- 10 Deeply concerned that due to the water crisis the infant mortality rate went from less
- 11 than 17 child deaths per 1,000 in 2010 to over 31 child deaths per every thousand in
- 12 2017.
- 13
- 14 Concerned that millions of citizens have fled Venezuela due to lack of food and
- 15 starvation and in addition to the water crisis, the infant mortality rate is also affected
- 16 by malnutrition and food related diseases such as cholera and malaria
- 17
- 18 Bearing in Mind that majority of the 5.4 million emigrants left to seek food or access to
- 19 clean water that we are in desperate need of.
- 20
- 21 Alarmed by the growing number of terrorist group appearances by the ELN (National
- 22 Liberation Army) and the FARC-D (Revolutionary Armed Forces of Columbia)
- 23 Concerned about the extent of these attacks which include a drone attack on President
- 24 Maduro himself in 2018
- 25
- 26 Deeply concerned that the mentioned terrorist groups have engaged in murder, rape,
- 27 forced labor, and child recruitment to establish social control over the citizens of
- 28 Venezuela in its border states in addition to stealing medicine from the citizens of
- 29 Venezuela that are necessary to their health.
- 30
- 31 Acknowledging that in most hospitals around the country there is a shortage or in some
- 32 cases, a total absence of basic medicines such as antibiotics, anti-seizure medication,
- 33 anticonvulsants, muscle relaxants, painkillers, etc and basic medicinal supplies such as
- 34 sterile gloves and gauze, antiseptics, medical alcohol, scalpels, needles, catheters, IV
- 35 solutions, nebulization kits, and surgical sutures.
- 36
- 37 The Delegation of Venezuela does hereby:

38 Call upon the United Nations to provide aid and supplies to the citizens of Venezuela
39 through the WFP (World Food Program) and provide them with food and safe drinking
40 water in order to combat the nation's malnutrition and starvation.

41

42 Urge the United Nations and the WHO (World Health Organization) to provide us with
43 the necessary medical supplies and medicines needed for basic treatment of patients.
44 The supplies and medicines needed are stated above.

45

46 Requests that the United Nations and the World Health Organization provide us with 2
47 billion dollars (USD) to help pay for the medical supplies necessary for our citizens.

48

49 Trusts that the United Nations recognizes the urgency of our situation and will provide
50 us with the aid we need.

**A Resolution for Immigration and Immigration-related Tensions in
France**

1 To the General Assembly:

2

3 Noting with grave concern that the total number of refugees seeking asylum has
4 reached over 100,000 and is continuing to increase because of persecution in
5 neighboring countries,

6

7 Bearing in mind that this has caused political turmoil because of the terrorist attacks six
8 years ago on Friday, November 13, 2015, causing France to shift the idea of Islamist
9 radicalization from a security issue to a social crisis,

10

11 Keeping in mind that between 2015 and 2018, 249 people have been killed in terrorist
12 attacks and 928 were wounded in a total of 22 attacks,

13

14 Mindful that these terrorist attacks result from internal tensions, mainly Islamophobia,
15 and the lack of resources necessary to ensure administrative efficiency regarding the
16 treatment of refugees,

17

18 Aware of the fact that laïcité is the constitutional principle of secularism in France,

19

20 Acknowledging that the religions and values of the immigrants are not mixing well with
21 those of the natural born French citizens,

22

23 Thankful that the government of France has provided aid and shelter for the asylum
24 seekers and that the Declaration of Human Rights recognizes the universal right to seek
25 asylum from persecution in other countries,

26

27 Cognizant that the UN has agreed to share the responsibility of managing large
28 movements of refugees in a people-centered manner,

29

30 Mindful that the country of France can only sustain and provide for so many refugees
31 seeking shelter,

32

33 Noting with concern that education will help with integrating refugee children into the
34 French society,

35

36 Understanding that many of the refugees are fleeing poverty, political turbulence, and
37 persecution,

38

39 Recognizing that over 61% of French citizens share the belief that immigrants and
40 refugees have resisted making an effort to integrate and 46% of people consider it to
41 not be difficult for immigrants to integrate,

42
43 Reiterating the fact that the increase in immigrants and refugees has caused conflict
44 and turmoil between the people and government,

45
46 Emphasizing the need for a better control of the current situation in France,

47
48 The delegation of France does hereby:

49
50 Encourage all members of the United Nations, especially those currently accepting
51 refugees from other countries, to support and implement temporary housing, schooling,
52 and jobs to increase familiarity with French ways of life, particularly in areas with
53 notable diversity,

54
55 Calls upon the UNHCR and the world bank, to aid France in supporting refugees'
56 introductions into the French society and social workers and insist on a contribution of
57 \$250 million in order to continue supporting refugees,

58
59 Endorse continued discussion of the necessity of a cohesive relationship between
60 refugees and French Citizens by the United Nations,

61
62 Notices that the government of France has to issue new regulations and safety
63 protocols, monitor all entering refugees, and improve current border security, and
64 therefore requests another contribution of \$150 million.

65
66 Bearing in mind that this contribution will improve the efficiency of our refugee
67 administrations, resulting in the mitigation of tensions between refugees and French
68 citizens.
